COMPANY OVERVIEW

About Us

DINAMIKA SINERGI ENGINEERING (DSE)

provides a comprehensive portfolio of customized industrial solutions for a range of national clients. We provide our expertise to various industries and specialize in process technologies – from sparepart maker, stainless steel fabrication until a machine maker. This is coupled with a first class network of global technology partners. Our engineering operations and technical services are always tailored to your specific needs as well as local environments and operating scenarios.

COMPANY VISION

Quality

DINAMIKA SINERGI ENGINEERING (DSE) sets the highest standards for our services, products and project management skills. We rise to every challenge and are committed to excellence at all times.

Commitment

Reliability and long-term relationships with clients and partners are essential in all our business activities. we always aim to help you achieve your goals and deliver optimized industrial solutions specifically tailored to your needs.

Trust

DINAMIKA SINERGI ENGINEERING (DSE) always puts its clients first. taking the lead, we protect and ensure your best interests and success. We stand by our reputation and longstanding company tradition.

PRODUCT SUPPORT

- LUBE SERVICE TRUK ON HEAVY TRUCK
- LUBE SERVICE TRUK ON MEDIUM TRUCK
- LUBE SERVICE TRUK ON LIGHT VEHICLE
- LUBE SERVICE ON CONTAINER
- LUBE SERVICE MODUL
- LUBE & FUEL SERVICE TRUCK
- WATER TRUCK
- WATER & WASHDOWN TRUCK
- FUEL TRUCK
- FUEL DISPENSING MODUL
- FUEL STORAGE TANK
- CRANE TRUCK
- OFFICE CONTAINER
- PORTA CAMP
- OIL FLUSHING MODUL
- 4x4 MODIFICATION
- KAROSERI
- HYDROTEST MODUL 5.000
- HYDROTEST MODUL 10.000
- HYDROTEST MODUL 15.000
- HYDROTEST MODUL 20.000
- TANK
- PAINTING
- PLUMBING
- FIRE HYDRANT
- FIRE SPRINKLER
- SPARE PART

LUBE SERVICE TRUCK (LST)

PT. DINAMIKA SINERGI ENGINEERING (DSE) produced high quality Lube Service Truck with various all models of truck. Heavy, Medium Truck also suitable for Light Vehicle.

We provide Lube Service Truck with thought quality and durability system package operation by :

- Hydraulic System
- Pneumatic System
- Electric System
- Combi System (Hydraulic, Pneumatic, Electric)

All compartment designed with compact module and safety independence system, each has individual main hole, breather and fluid level indikator.

Volume of compartments different size meets the costumer needs and costumizing each system module has own dispensing system with high quality product and easy operated.

LUBE SERVICE TRUK STANDARD TYPE SYSTEM DISPENSING Provided :

- HYDRAULIC OIL
- ENGINE OIL
- TRANSMISSION OIL
- FINAL DRIVE OIL
- WASTE OIL
- COOLANT
- GREASE
- AIR PRESSURE
- ADDITIONAL COSTUMIZE

LST ON MITSUBISHI FE 74 PT PJPN

FUEL TRUCK (FT)

ON NISSAN CWE PT SEMEN PADANG

PT. DINAMIKA SINERGI ENGINEERING (DSE) produced high quality Fuel Truck with various all models of truck to support operation on your site.

Installed with a volume tank that is adjusted to the capacity of the truck, calculated with maximum conditions and is safe for use. equipped with a breakwater so it is safe to drive, equipped with a ladder and handrails, so it is safe in operation. Variations in use, this fuel truck can be used to fill large and small units.

We assemble the filling system supported by several system options:

- Hydraulic system
- Direct drive system
- Independent drive system
- Custom system

All compartment designed with compact module and safety independence system.

FUEL TRUCK SYSTEM FEATURED

- HIGH VOLUME FUEL TANK
- HIGH FLOWRATE DISPENSING
- HIGH ACCURACY FLOWMETER
- CLEANLINESS FUEL

FT 5KL ON MITSUBISHI FE 74

WATER TRUCK (WT)

WT 20 KL ON DAEWOO PT KIDECO

PT. DINAMIKA SINERGI ENGINEERING (DSE) Water Truck is produced to support operations at your mine site.

Attached with high volume tank fabricated with standard mild steel thickness 6 mm, inside baffle, water hopper, main hole, handrail and ladder to easier check and maintenance. Each WT equipped with pressurize sprayer head, water cannon, manual gravity sprayer bar and also hose reel.

We assemble the system supported by several system options:

- Hydraulic system
- Direct drive system
- Independent drive system
- Custom system

All compartment designed with compact module and safety independence system, each has individual main hole, breather and fluid level indicator.

Volume of compartments different size meets the customer needs and customizing each system module has own dispensing system with high quality product and easy operated.

WATER TRUK SYSTEM FEATURES :

- **PRESSURIZED SPRAYING SYSTEM**
- **WATER CANNON**
- **MANUAL GRAVITY SPRAYER**
- **COMBINATION WITH WASHING MODULE 150-350 BAR**
- **WATER FILLING SYSTEM**
- **AUTOMATIC CONTROL FORM CABIN DRIVER**

WT 5 KL ON HINO DUTRO

WT 20 KL MODUL

CRANE TRUCK (CT)

CT 18 Ton TADANO ON UD CWE280 PT BA

PT. DINAMIKA SINERGI ENGINEERING (DSE) Crane Truck is produced to support operations at your mine site.

Attached with high volume Deck fabricated with standard mild steel thickness 4 mm for Floor, and also with swing side door.

The Deck Crane Truck is designed to both mount the crane. Adjusted to the needs of the crane capacity. refers to the crane mounting body standard.

OUR BRAND PARTNERSHIP :

- HYVA
- TADANO
- AMCO VEBA
- UNIC
- PALFINGER
- FASSI
- HIAB

SERVICES OFFERED

Committed to helping your business thrive.

MACHINE INSTALLATION

We maintain our team to take care of industrial machine installation until commissioning. They will handle the on-site installation planning and precise coordination with your own staff regarding delivery times, space requirements and auxiliary equipment needed to install your machines.

PIPING & PLUMBING

MECHANICAL ELECTRICAL PLUMBING (MEP)

Our expertise in planning and design of piping for the efficient transport of liquids and gases supports our markets of practice with specialty piping systems.

Clean Water Pump System :

- Water Pump System
- Pressure Tank System
- Panel Electric System
- Alternately Pump On/Off

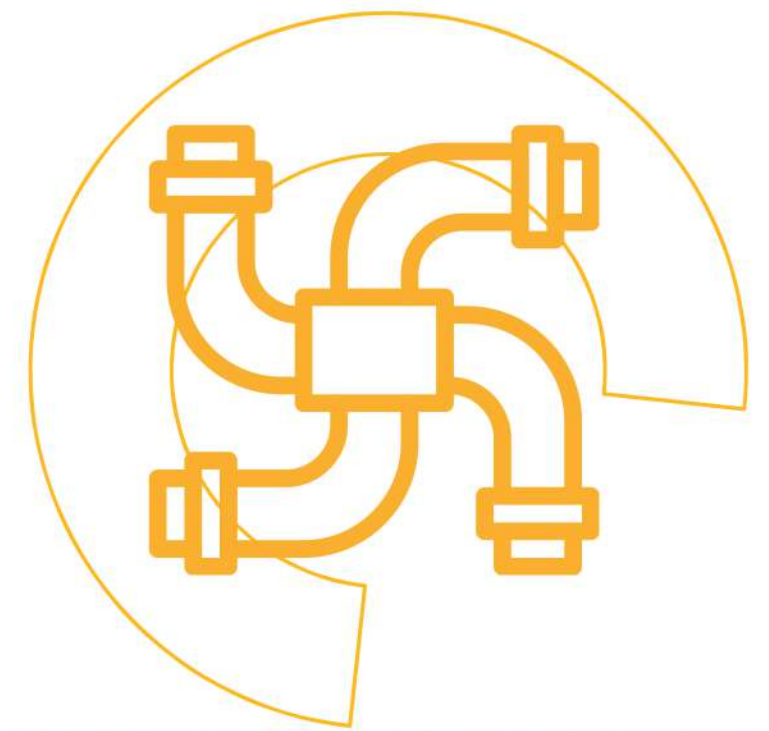

Clean Water Filter System :

- Filter Water Pump System
- FRP Filter Or Other
- Panel Electric System
- Media Filter
- Pipe Line System

MAINTENANCE & SERVICES

Hydrant Repair

- Hydrant Pillar
- Jet Nozzle
- Seal Hydrant Pillar
- Seal Jet Nozzle
- Seal Coupling

FIRE PROTECTION SYSTEM

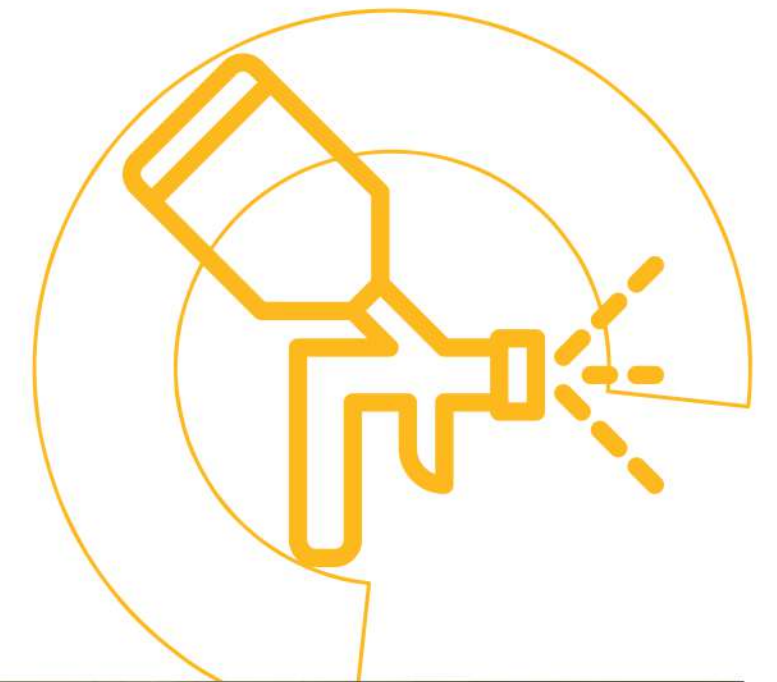

Fire Protection System digunakan untuk memadamkan, mengendalikan, atau dalam beberapa kasus, sepenuhnya mencegah penyebaran atau terjadinya kebakaran. Sistem pemadaman kebakaran memiliki beragam aplikasi yang sangat beragam, dan oleh karena itu, terdapat banyak jenis sistem pemadaman kebakaran untuk aplikasi berbeda yang digunakan saat ini. Dari jumlah tersebut, ada beberapa yang masih digunakan namun sudah tidak sah lagi untuk diproduksi dan diproduksi

- **Fire Hydrant System**
- **Fire Sprinkler System**
- **Fire Pump System**
- **Fire Foam System**
- **Siamese Connection System**
- **Fire Supression System**
- **Fire Alarm System**

PAINTING

We have extensive experience in applying all types of industrial coatings under all kinds of conditions. Whatever your coatings needs, from surface preparation to long-term maintenance, we will deliver on time, expertise, quality and value for money.

MACHINING

Our machining services and processes goes through a systematic workflow while maintaining utmost quality of the end product. Our products always go through quality checks and 2-level quality assurance checks.

PART MODIFICATION

We have the expertise and resources to ensure that your parts offer strict conformity through simple part modifications, complex alterations and/or part repairs. Part reworking is usually the best method for cost-effectively correcting a part quality problem - and we have the experience to evaluate - and correct - your specific quality problems.
